

MISSION STATEMENT

The Mission of the City of Encinitas Public Works Department is to provide high quality maintenance of the City's public works infrastructure in an economic and environmentally responsible manner while preserving and enhancing quality of life and public safety.

WELCOME FROM THE DIRECTOR OF PUBLIC WORKS

Thank you for visiting the City of Encinitas Public Works Department home page. The Public Works professionals in our Department are dedicated to providing quality maintenance and operations of the city's public works infrastructure.

The Public Works Department provides a wide variety of services to the residents of the City including: provision of potable water to over 10,000 customers through the San Dieguito Water District, sanitary sewer maintenance of 128 miles sewer lines in the Encinitas and Cardiff Sanitary Divisions service areas, street and public right-of-way maintenance for 189 miles of city-maintained streets, on-going maintenance of City owned facilities including the Civic Center and all fire stations, maintenance of all storm drain related facilities to insure compliance with all clean water laws, maintenance of the City's over 100 vehicle fleet and management of the City's solid waste, recycling and household hazardous waste programs and contracts.

Your Public Works department is here to serve you. We are committed to providing exceptional customer service. The links available through this web page are included to provide you additional information about us. If you need additional assistance, please feel free to call us at (760) 633-2840.

Thank you for visiting the Public Works home page. We look forward to serving you.

Sincerely,

Larry Watt

Director of Public Works

Larry Watt – Biography

Larry Watt is a veteran public works official in San Diego with over 25 years experience in the field. He has held positions at Caltrans and most recently the County of San Diego's Public Works Department where he served as the head of the Transportation Division. In that capacity, he was responsible for managing all road and channel maintenance for the County's 2000 mile road system, engineering support to field operations, traffic operations and engineering, fleet management, transportation planning and management and operations of the County's eight airports.

Mr. Watt, an Encinitas resident, holds a Bachelor's Degree from the State University of New York at Binghamton and a Master's Degree from San Diego State University. He is a member of the Institute of Transportation Engineer's and the American Public Works Association.
