

Character Sample Rock G
Heavier texture than most other rock outcrops in area

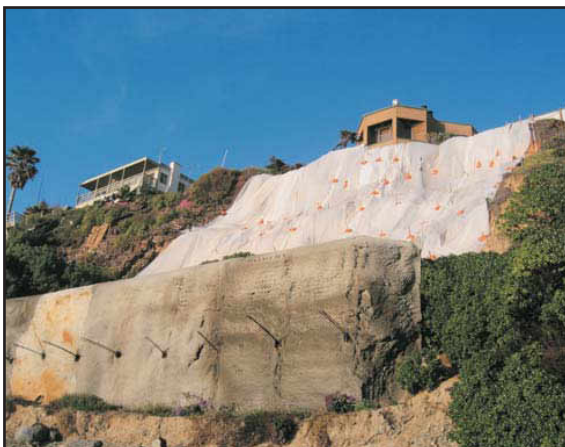

Character Sample Wall A
Rounded forms, but still clearly man-made

Character Sample Wall B
Wall relates well to rock in sand

Character Sample Wall C : Too many materials and forms along this section of the wall

Character Sample Wall D
Wall currently under construction

Character Sample Wall E : Because of its far westerly position, this wall is very visible but has a more natural landform and texture than most others
